

World Peace Through Foreign Aid

Rosalyn Brown,
Dean Kim,
Tom Scott,
Samuel Simons

Government Accountability Office (GAO) provides Congress, the heads of executive agencies, and the public with timely, fact-based, non-partisan information that can be used to improve government and save taxpayers billions of dollars.

Our work is done at the request of congressional committees or subcommittees or is statutorily required by public laws or committee reports, per our Congressional Protocols.

By request of Congressman Dawson and Congressman Rivera we examined foreign aid distribute to determine If aid provided Is non biased and used to help countries as spelled out In the purpose.

As the (GAO) our job is to hold our elected official accountable for how they utilize government resources. Through out research we see can see what factors lead up to unrest and how our Investments can help prevent them.

Factors Measured

- Exchange Rate
- Balance of payment
- CPI
- Change In GDP

We believe...

Exchange Rate

**Balance of
Payment**

CPI

Change In GDP

Negative trends of any multiple of the above factors will lead to civil unrest. A single factor on It's own gives reason to take notice but not a full reallocation of funding and resources as a first result.

Quality Control

We used linear regression and natural language processing to determine the likelihood of political unrest given economic factors lists previously.

CONGRESSMAN SCOTT

CONGRESSMAN KIM

Although the
facts say....

There are clear factors that help us determine where conflict will occur and we know aid can reduce or prevent these conflicts. The money is not going where it is needed.

Value of
Currency

Food Prices

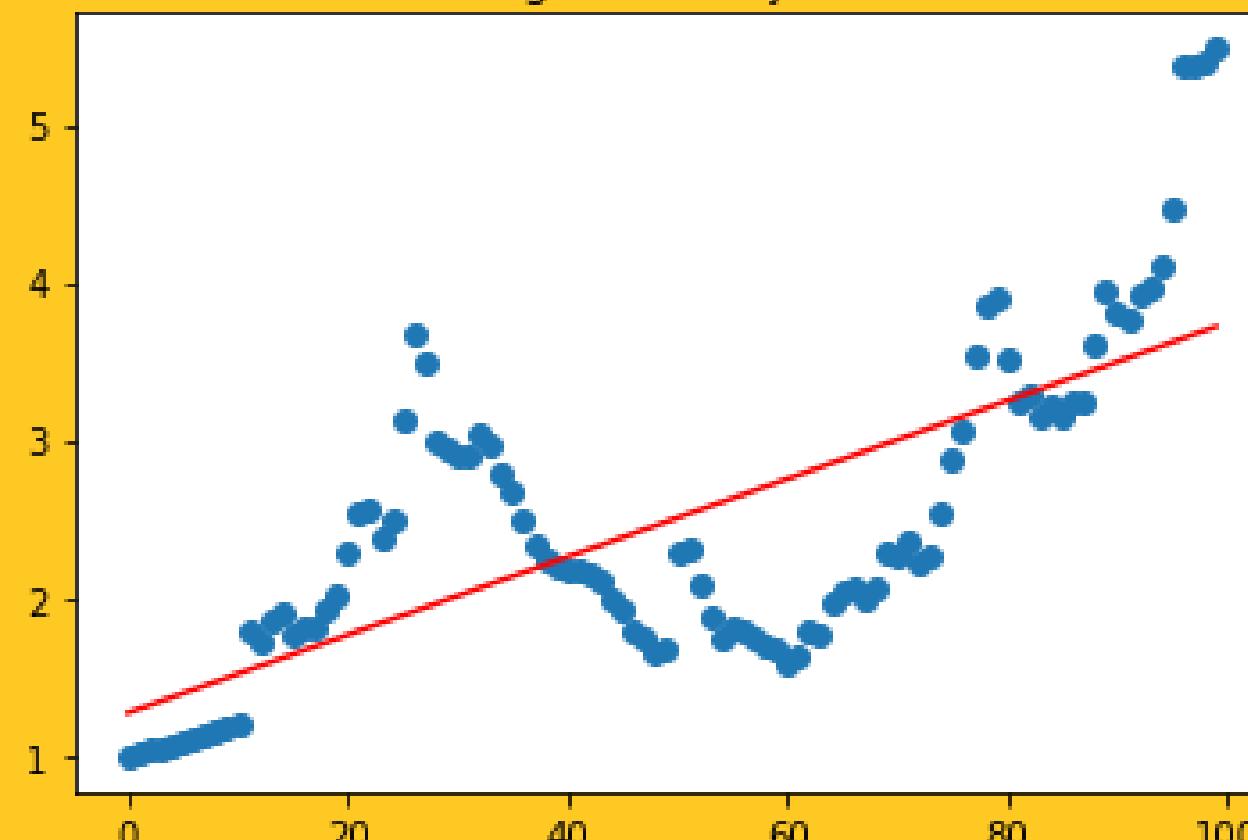

GDP Impact
Quality of Life

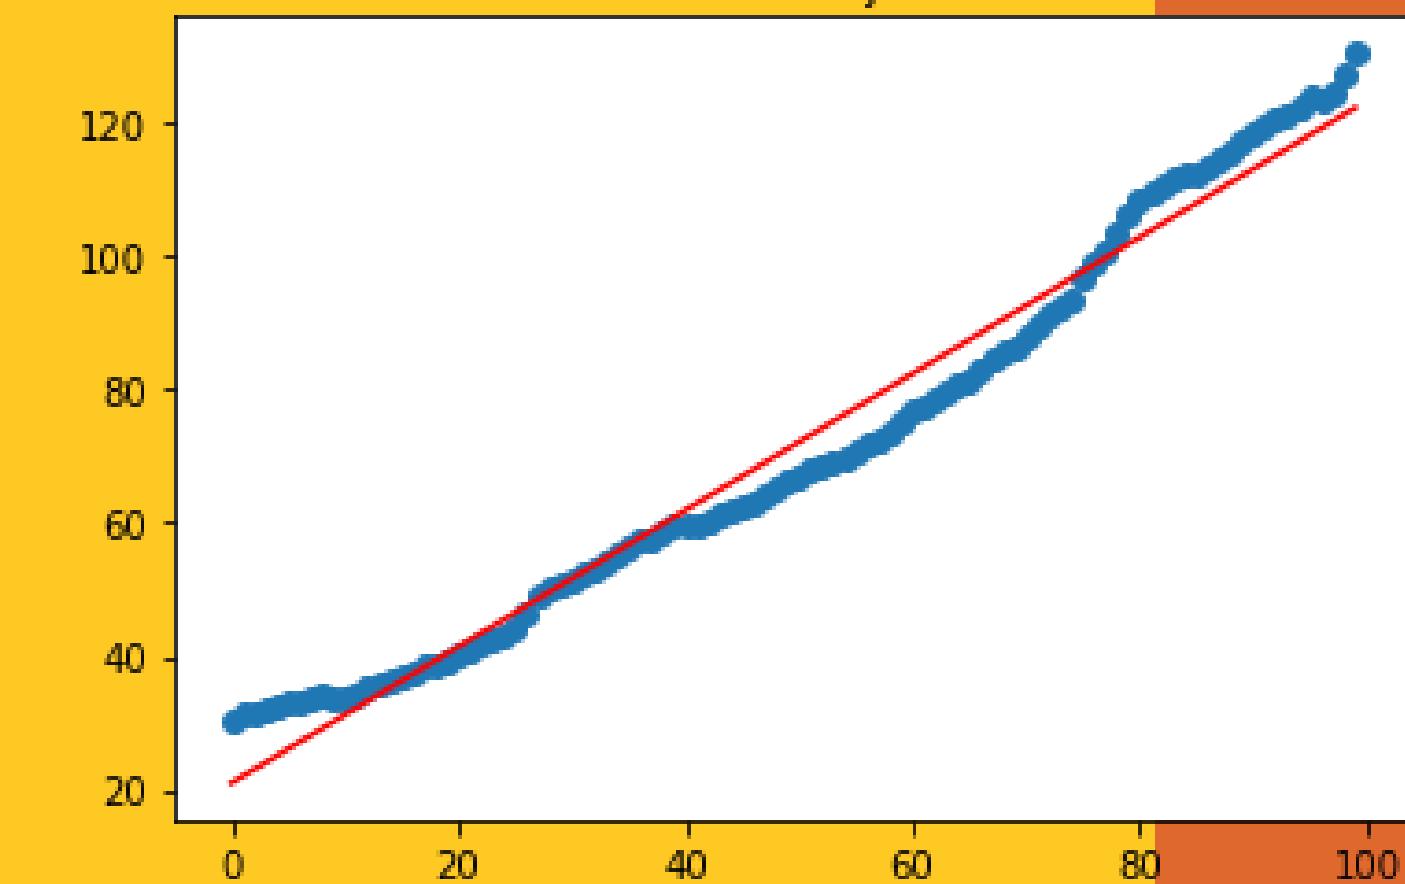

Increases Cost
of Goods

Where Money Should be Going...

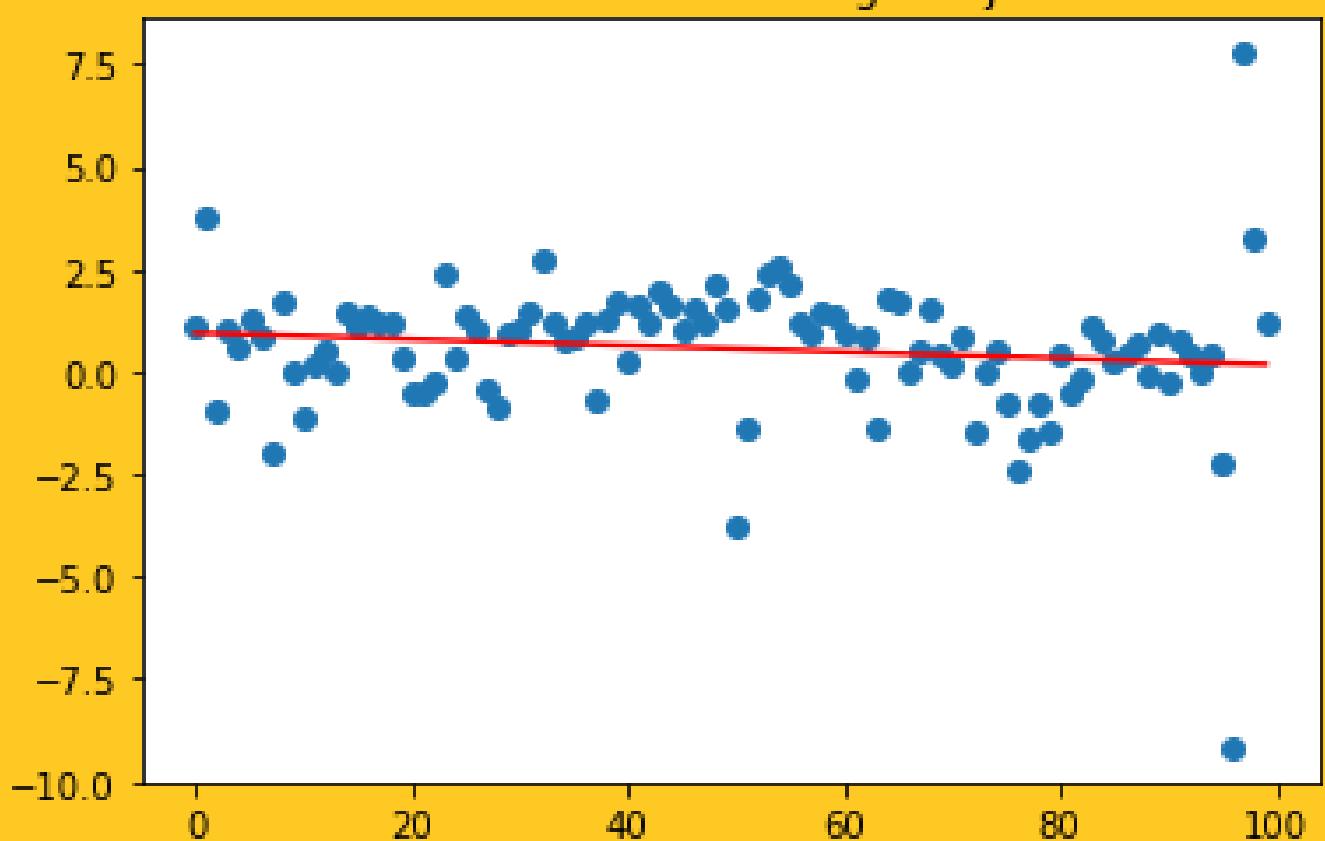

Brazil Exchange Rate Projection (to USD)

Brazil CPI Projection

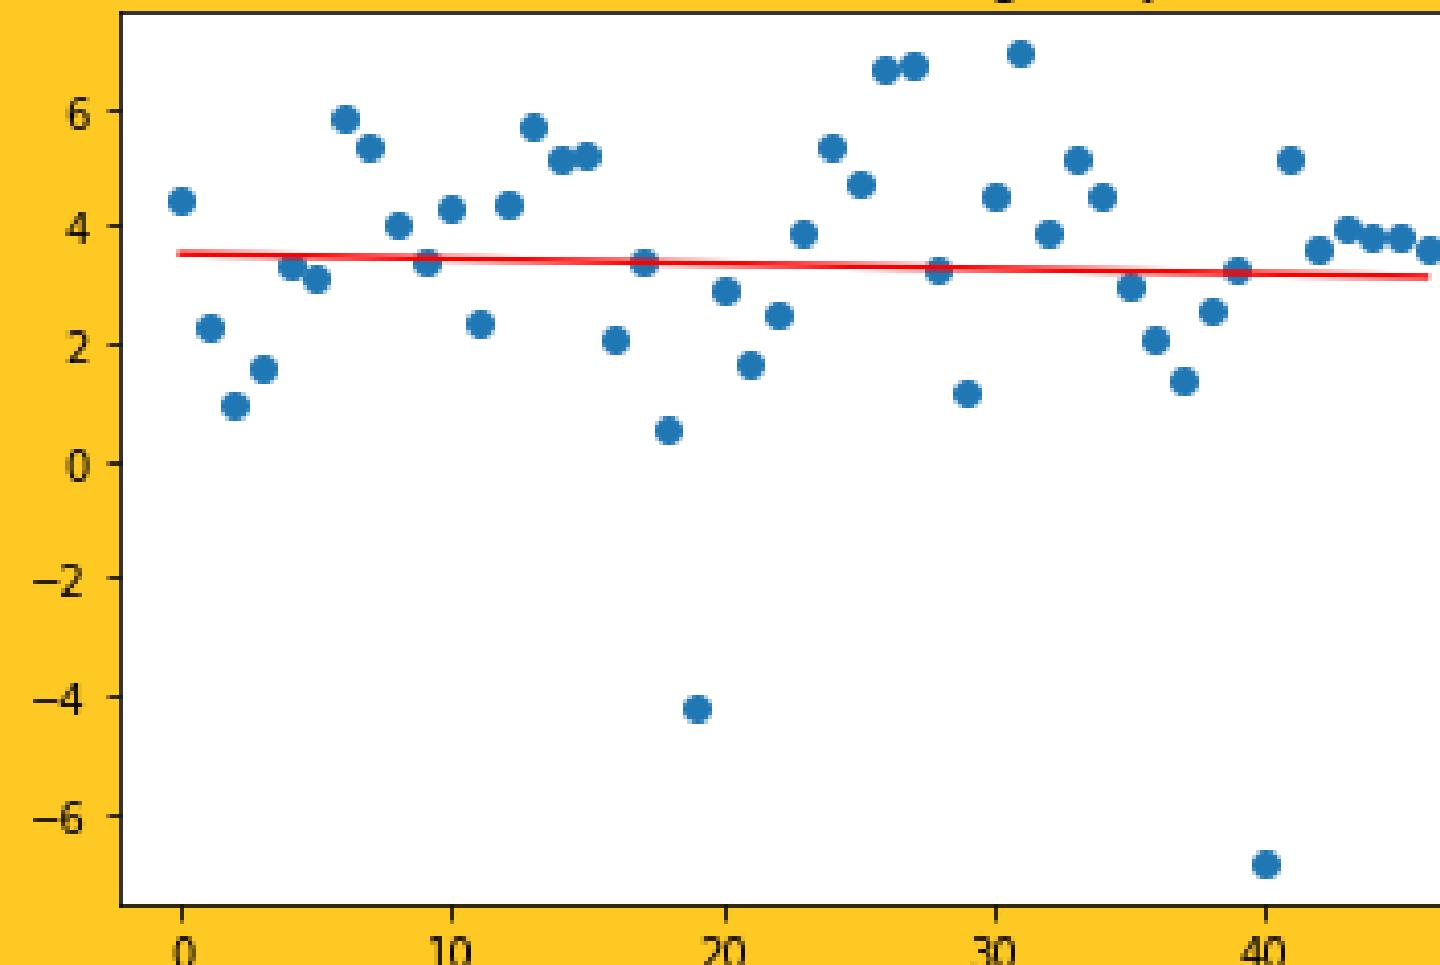

Brazil GDP Percent Change Projection

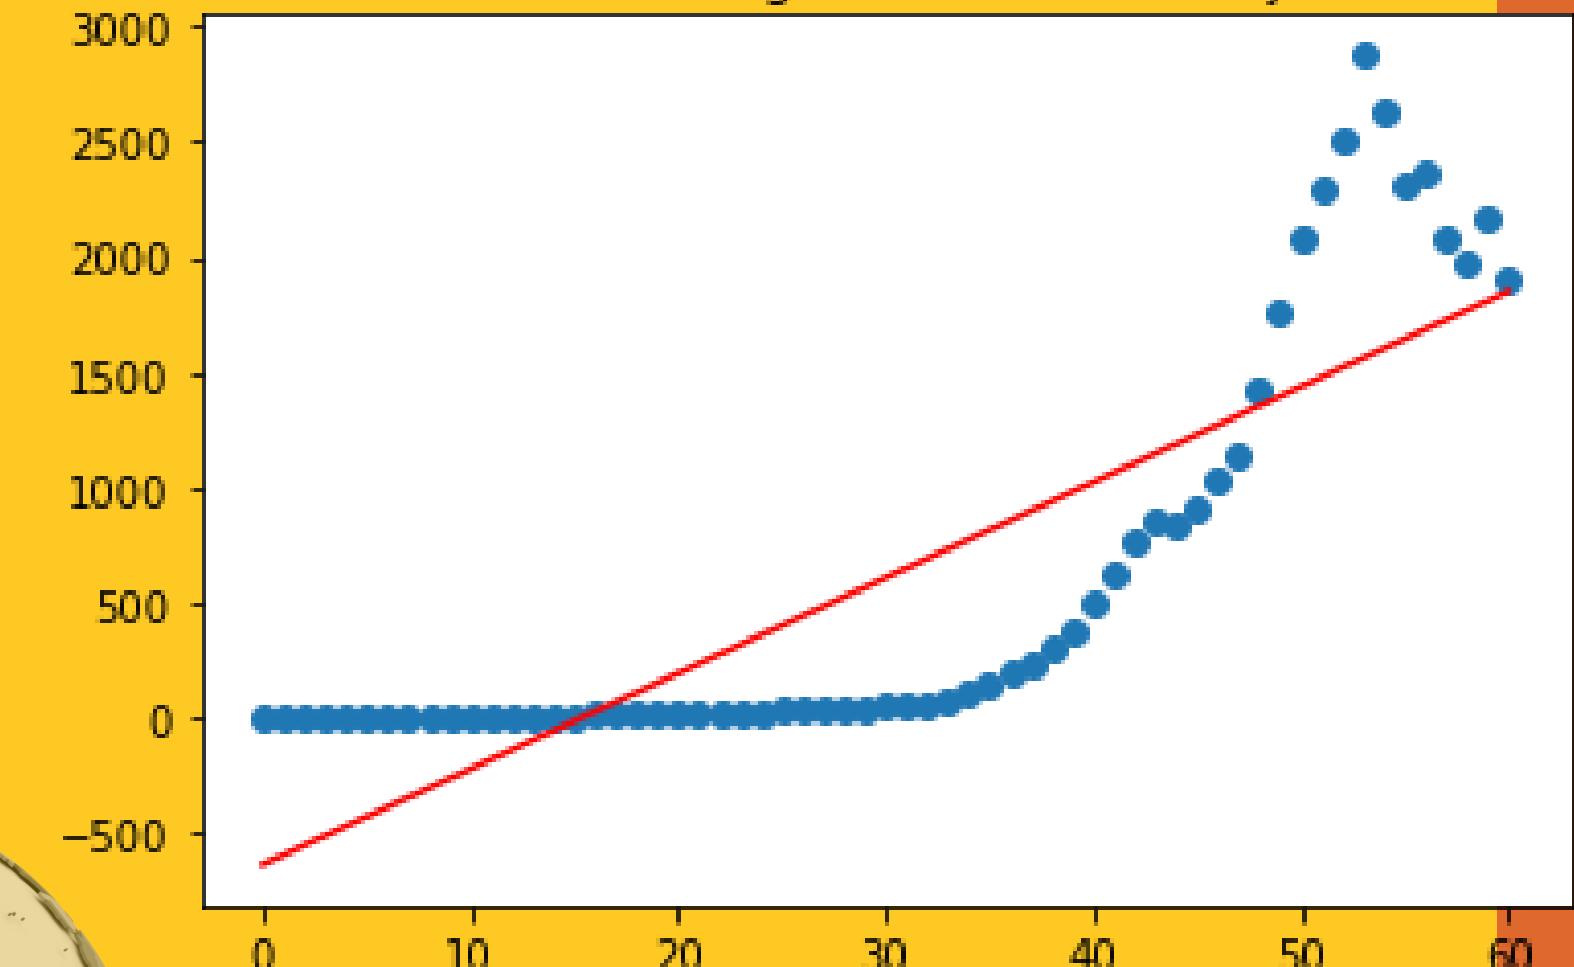

Where Money Should be Going...

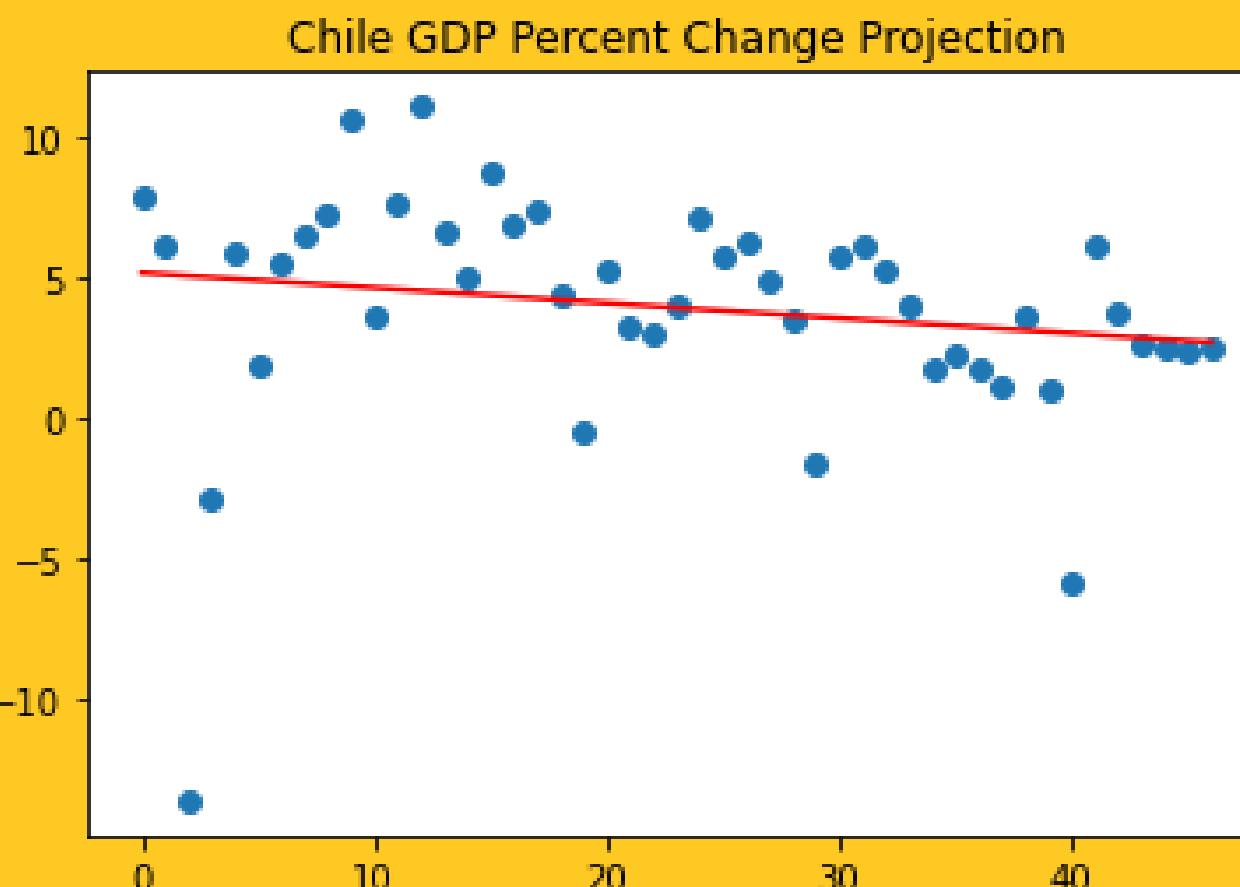

Colombia GDP Percent Change Projection

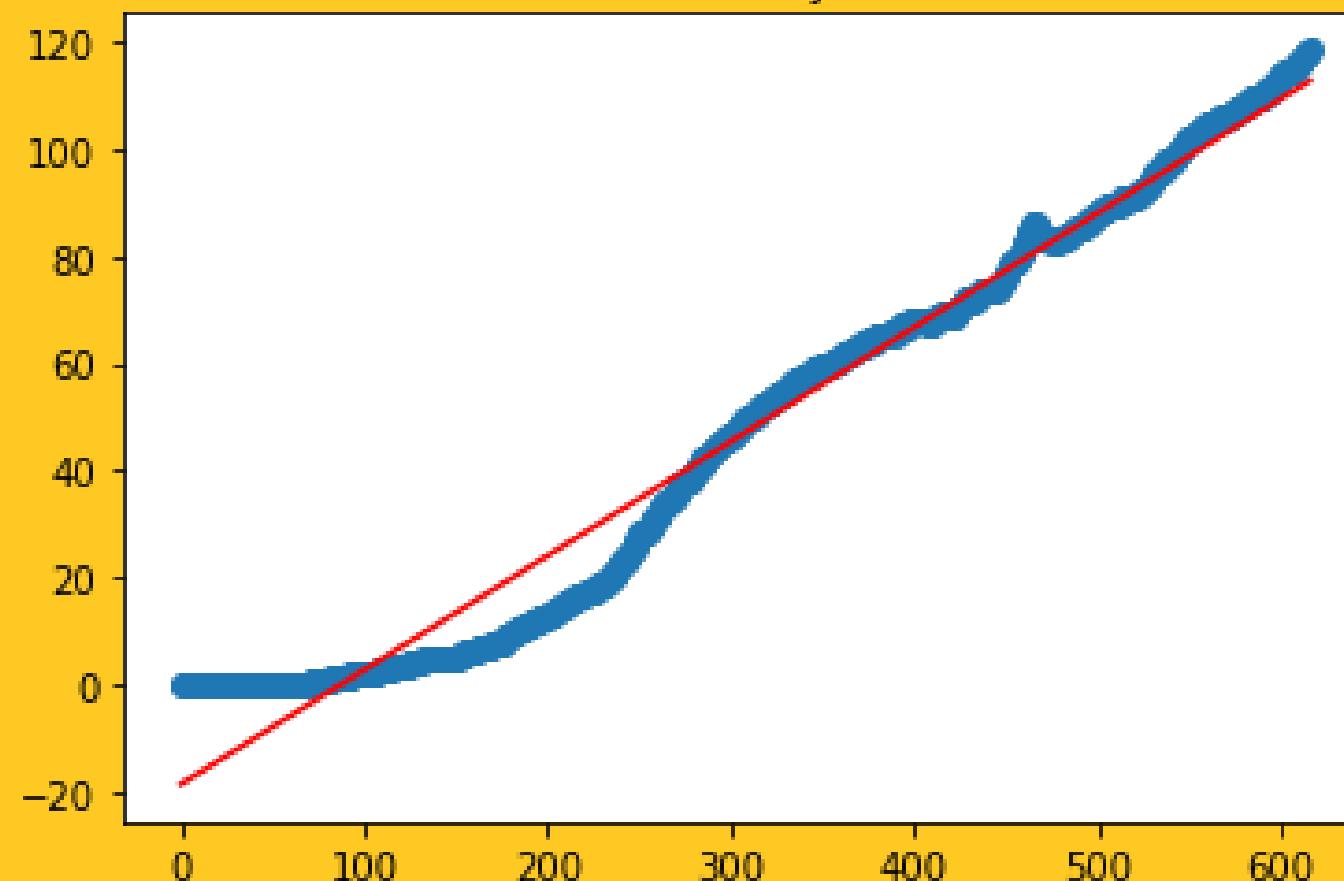

Colombia Exchange Rate (to USD) Projection

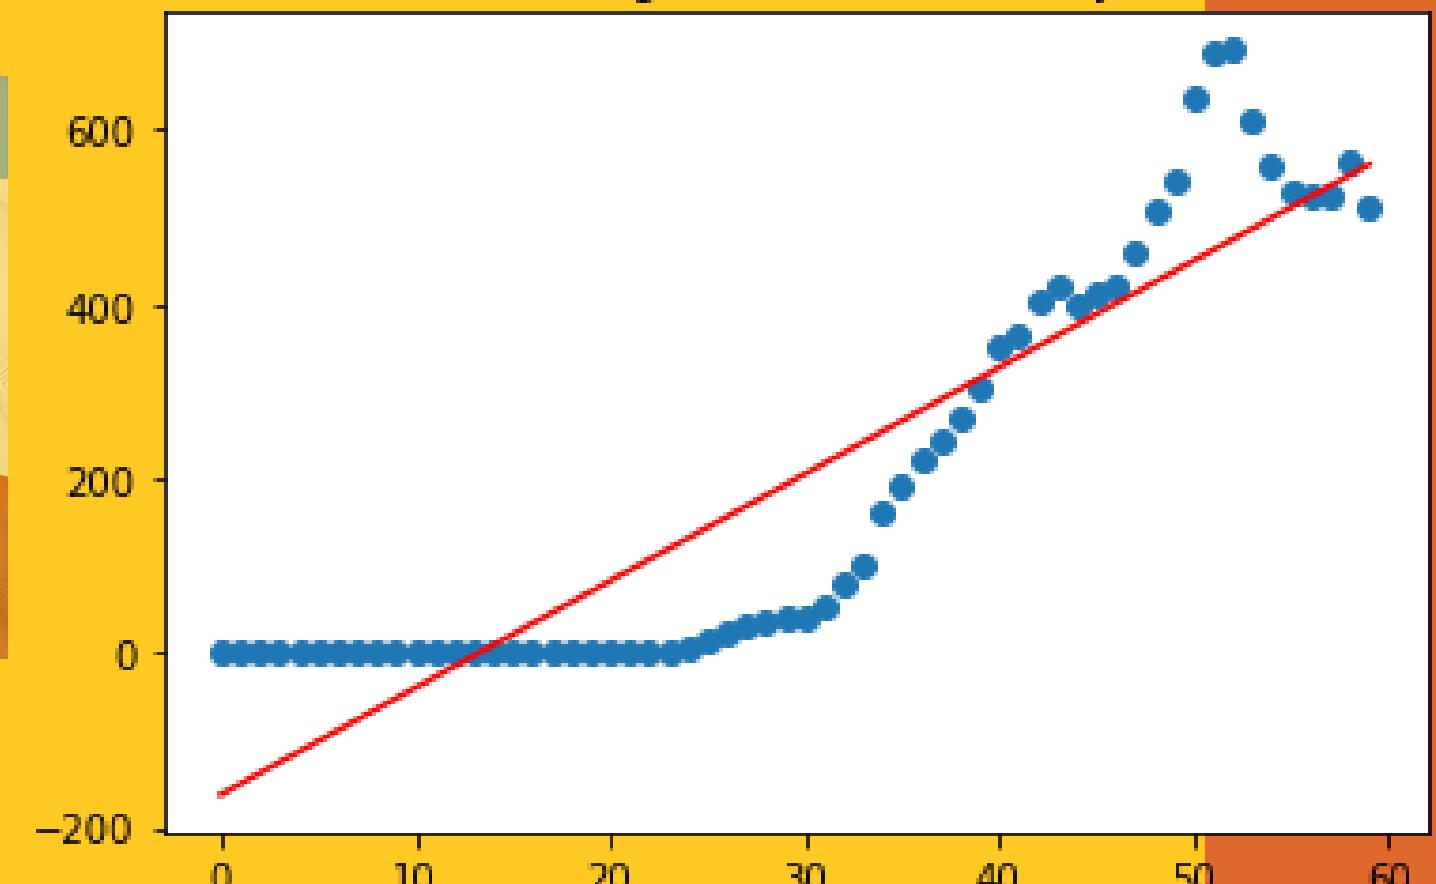

Where Money Should be Going....

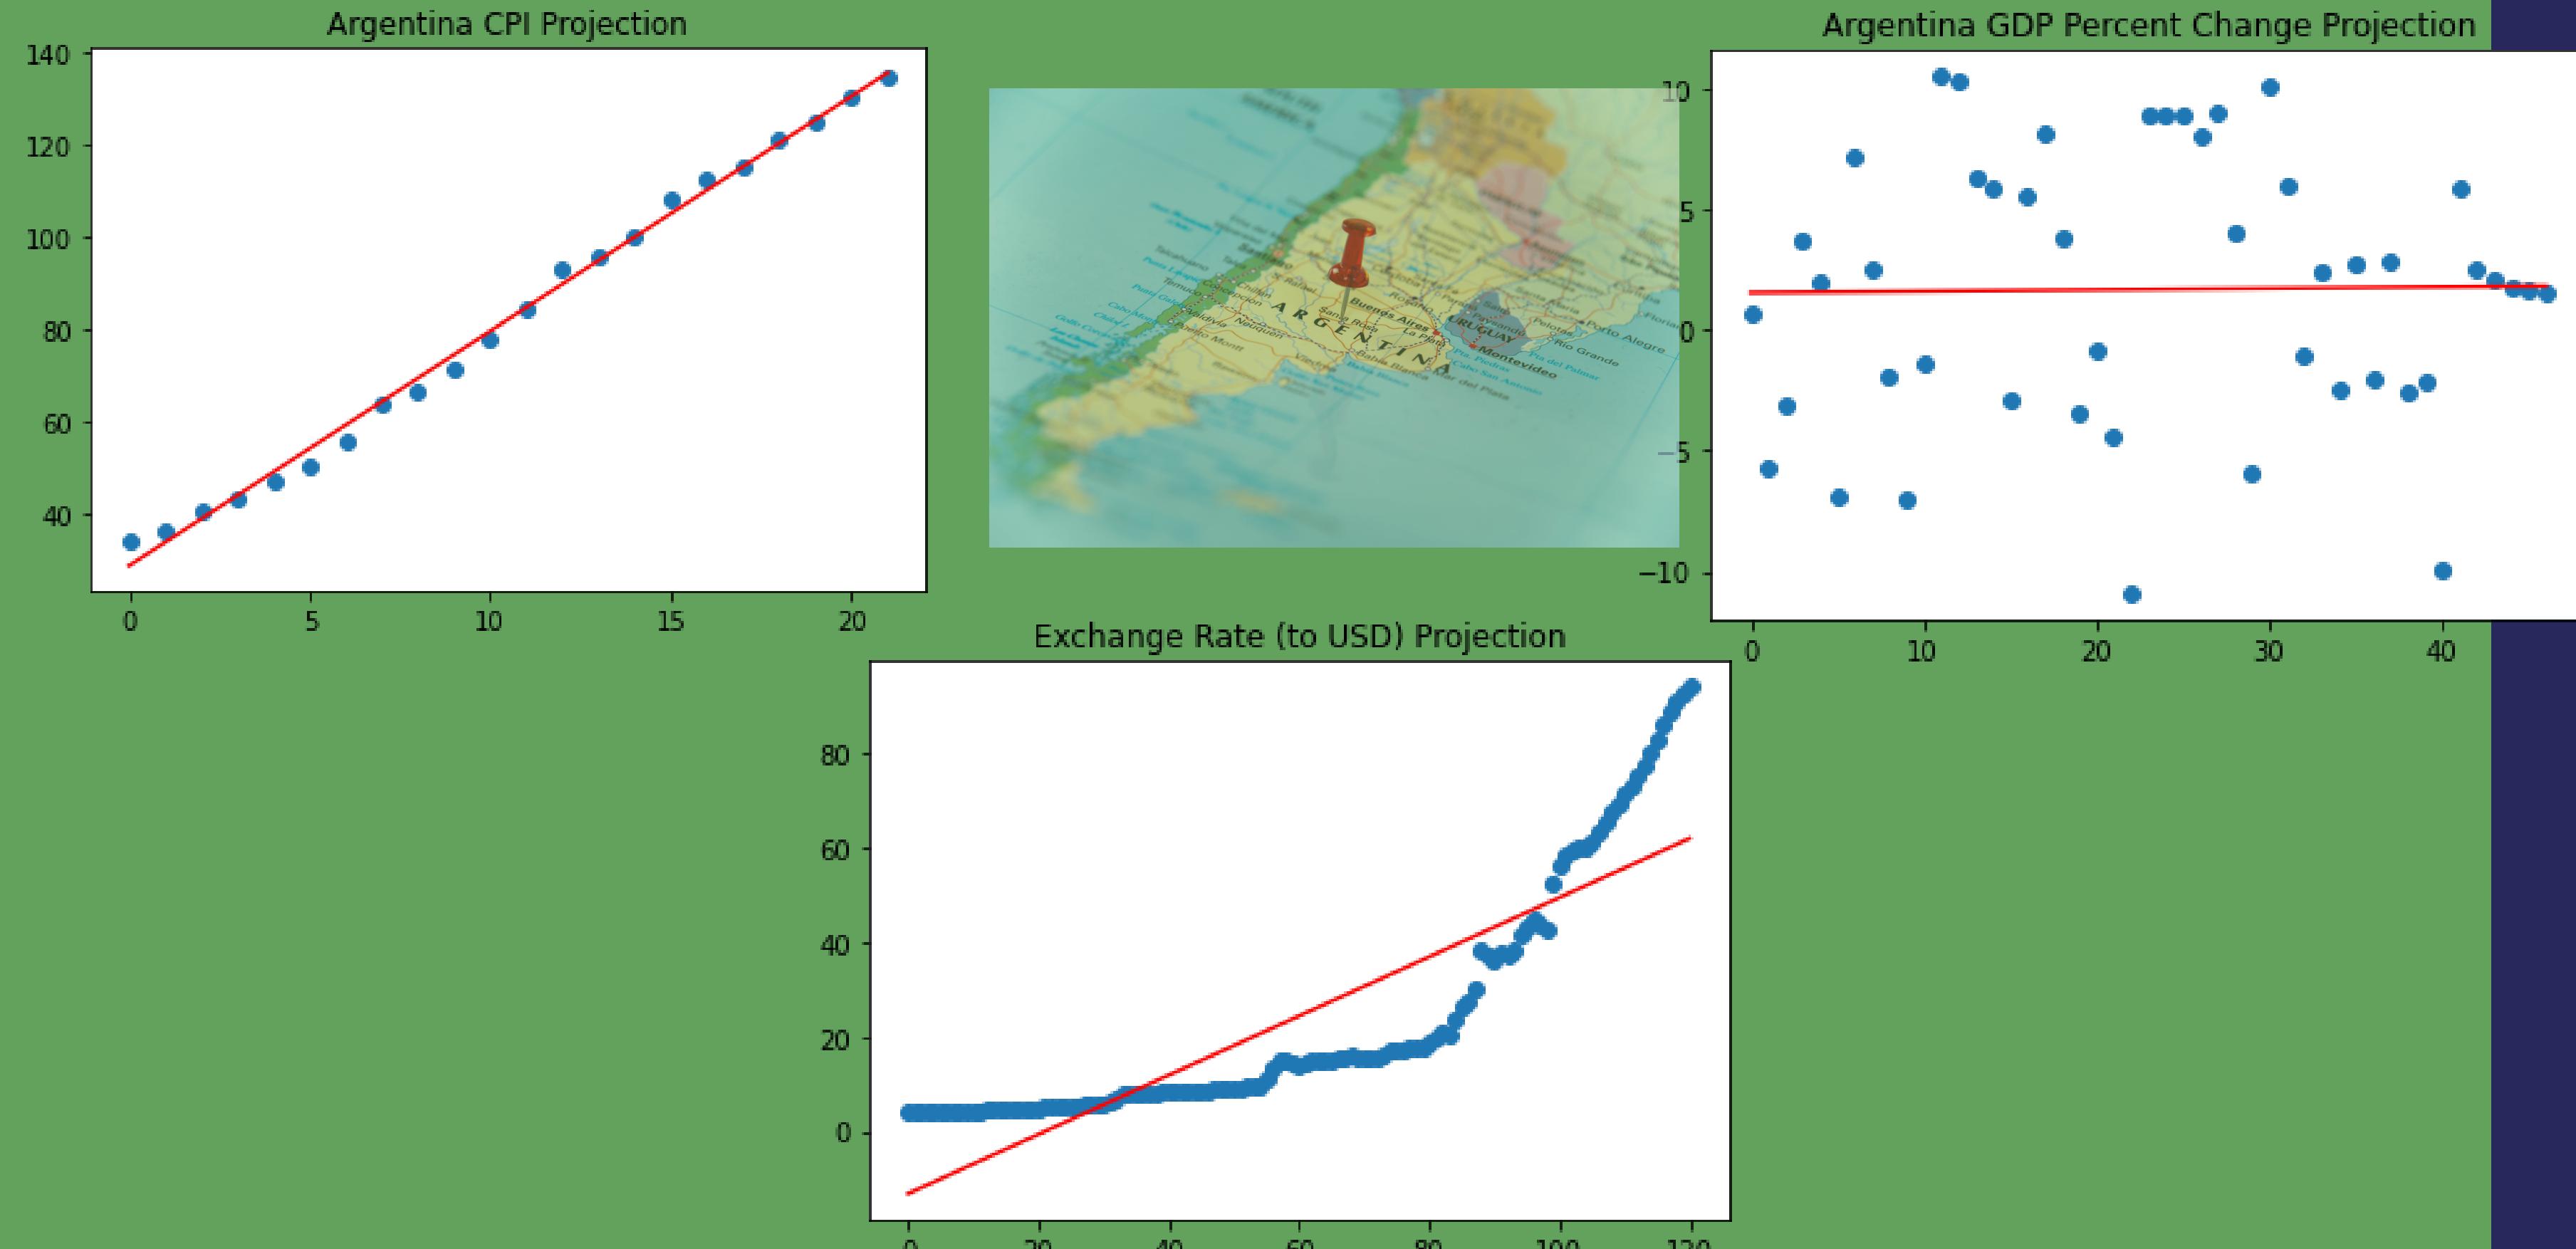

Chile CPI Projection

Chile Exchange Rate (to USD) Projection

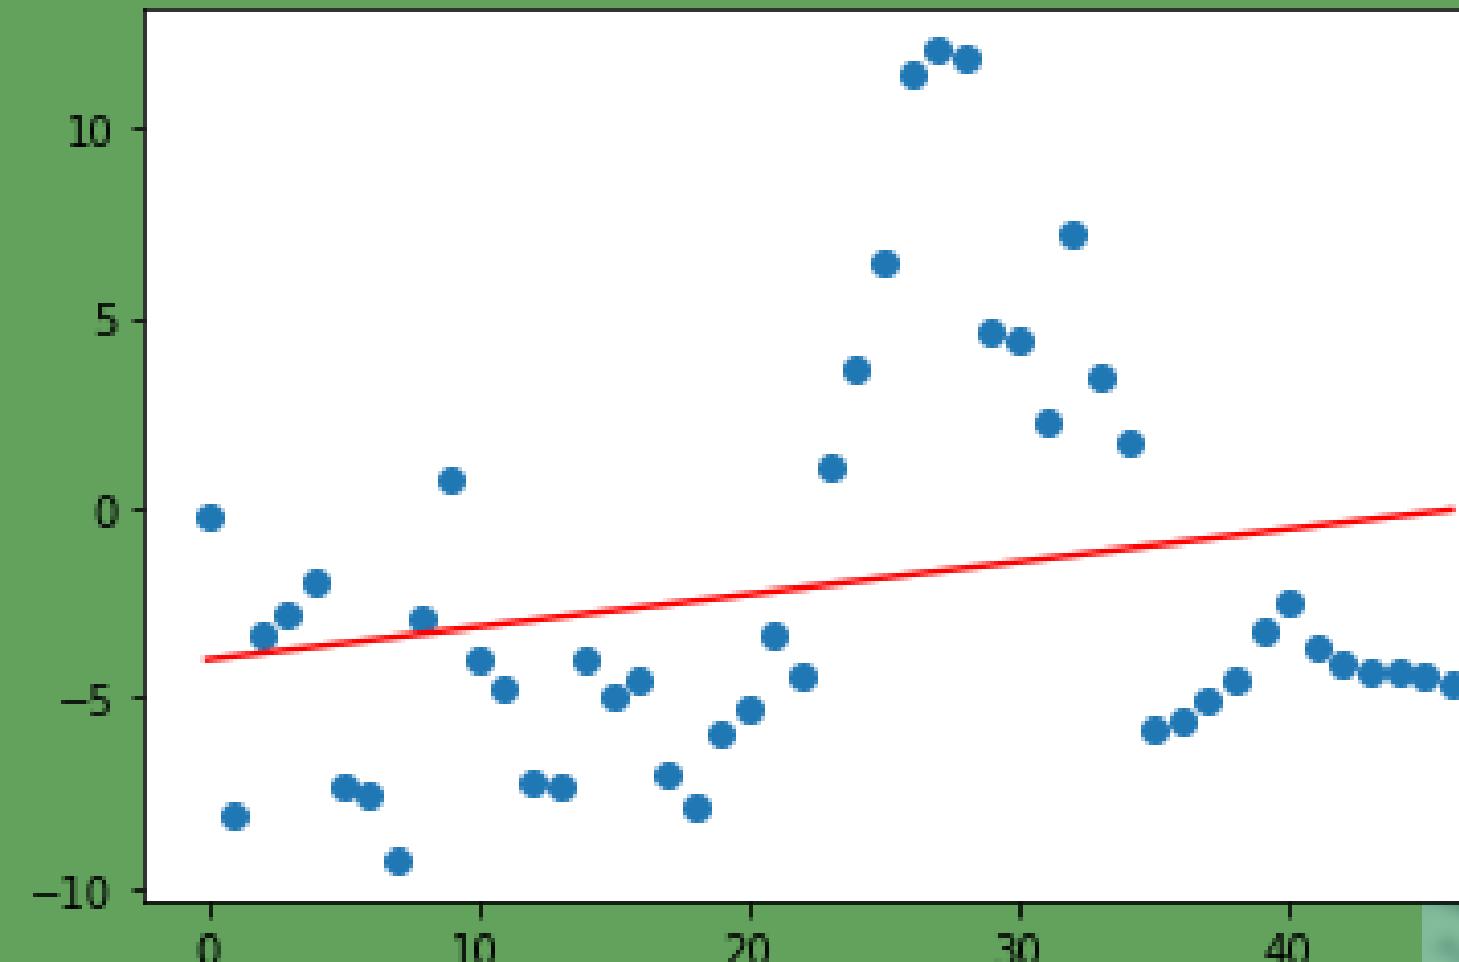

Where the Money Is Going....

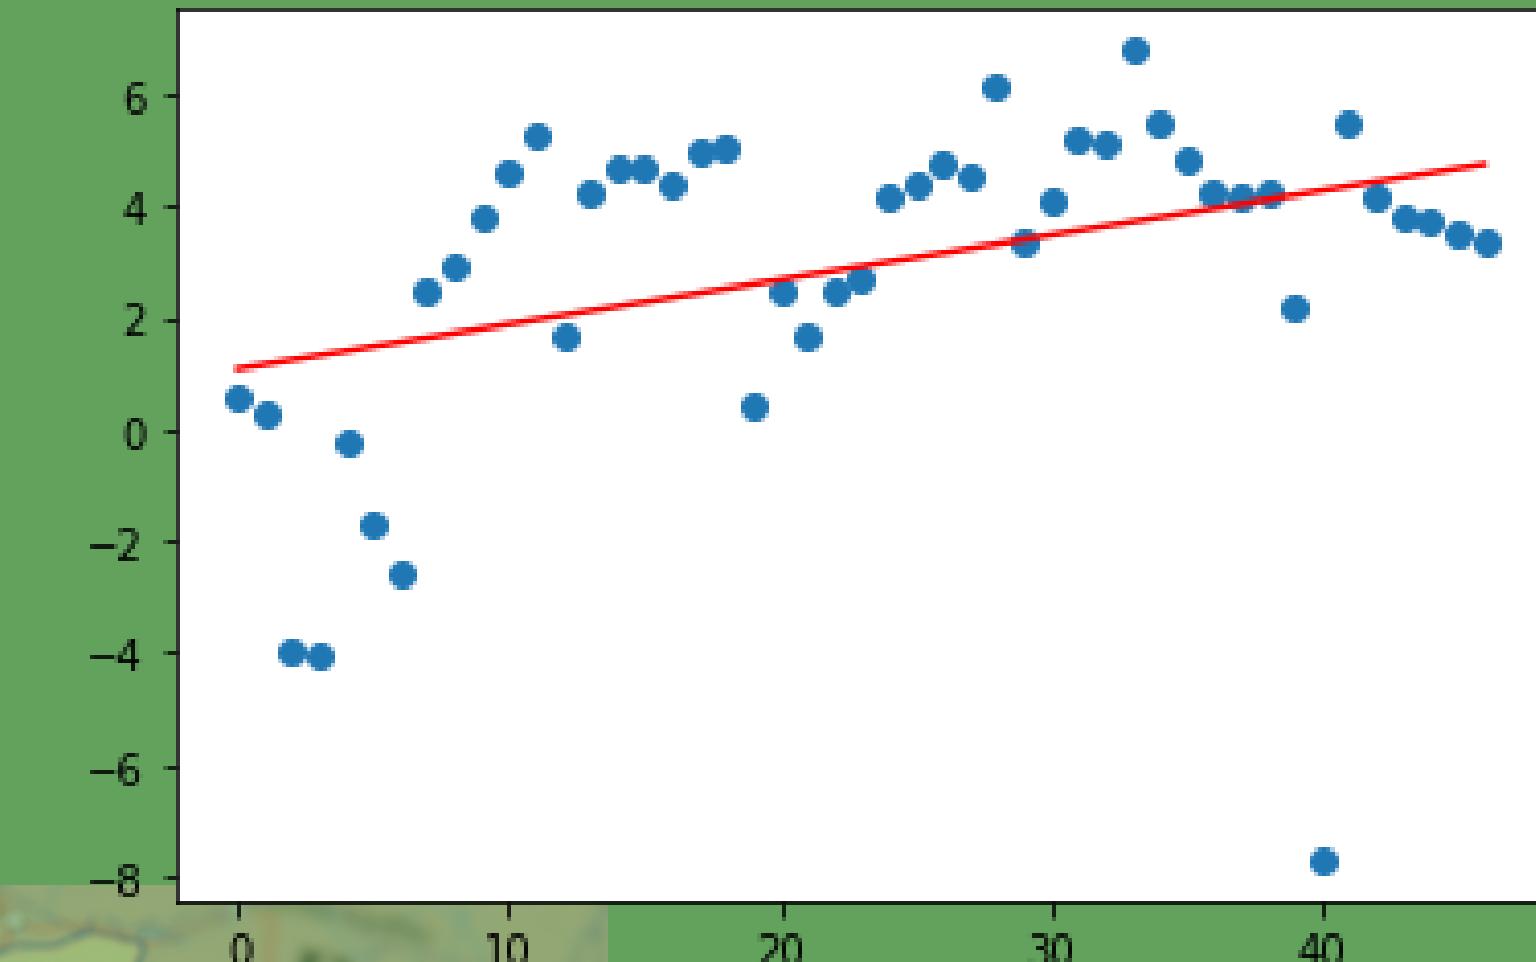

Where the Money Is Going....

Bolivia Balance of Payments Projection

Bolivia GDP Percent Change Projection

Conflict

Instability In the economy

Conflict

Reduction of the ability for citizens to obtain their basic needs

Words of Caution....

A dense word cloud centered around the names of major cities in Brazil: São Paulo, Rio de Janeiro, and Belo Horizonte. The words are arranged in a grid-like pattern, with larger, bolder letters for more frequent terms. The color of the words varies from light blue to dark red, creating a visual gradient across the image.

Chile

A dense word cloud centered around the theme of vaccination and health. The most prominent words are "worker" (large blue), "vaccination" (large orange), "Santiago" (large blue), "Copper" (large red), and "Russia" (large blue). Other significant words include "coronavirus" (red), "disease" (white), "COVID" (blue), "health" (white), "China" (blue), "prepares" (white), "dose" (white), "prices" (yellow), "Escondida" (blue), "Sinovac" (red), "CoronaVac" (blue), "Wednesday" (white), "Bank" (blue), "biggest" (blue), "analyst" (blue), "potential" (blue), "authority" (blue), "centre" (blue), "fossilized" (blue), "old" (white), "Chilean" (blue), "skeleton" (white), "Britain" (white), "promise" (white), "adds" (white), "rose" (white), "March" (white), "million" (white), "central" (white), "dollar" (white), "Chile" (white), "care" (white), and "medical" (white).

Colombia

Words of Stability.

Argentina

Bolivia

Most significant Factors

High Inflation

Stagnant Growth

High Food Costs

Conclusion...

Based on the data the US needs to send foreign aid to Colombia, Chile and Brazil to prop up their ailing economies and prevent further political instability. Foreign direct investment and and influx of dollars will further prevent inflation by building up the countries' respective foreign currency reserves.
